Everyone will benefit from this book...regardless of their age, sex, relationship status, or even their religious beliefs.

By Nasreen Abusam

This is a must read book for everyone. I think it should be a requirement for everyone to read it in high school. To be honest, I was skeptical and thought I will not learn anything new...I WAS WRONG. It was easy to read, made valid convincing points , used a lot of real life examples of real issues. This book will not only benefit the Muslim community, but even non-Muslims can benefit from it.

I have two younger brothers, and I am about to purchase two copies for them as gifts right NOW!!!!

Bought this book this weekend at a convention - and couldn't put it down! Well written and researched, this is an easy to read and practical guide. I was worried it would only be useful for engaged couples, but I appreciated that the authors made it relevant it for singles and married couples as well. Can't wait for their next book!
