Extremely thorough

By Eric Hall

This is a great book if you really want to get to know your T5i Canon camera. Layout is thoughtful and each chapter can build on the last or can stand on its own. A definite buy if you are serious about taking great pics without relying on auto settings!

35 of 37 people found the following review helpful.

Excellent book

By Fareed Rajack

I bought this book along with my first dslr camera (t5i of course!). I read it within the first two days and am very pleased . Not only does it explain the workings of the t5i , but it is an excellent introduction to dslr photography . The principles and basics of the Optics involved in photography are explained very nicely . This has definitely inspired me into learning more about photography.

Thorough Instructions and useful tips

By Amazon Customer

Loved this book. The author(s) have taken extreme care in organizing the content adding significant value and not a straight copy from the Canon manual. Excellent tips and basic concepts explained well. Will enable

readers to start using the advanced features of the camera quickly.
