# **EMBRACE (THE AFFAIR SERIES BOOK 2) BY S LAYNE, STACEY LYNN PDF**

Liam Parker crash landed into Laurie's life when everything else was crumbling all around her. Her marriage and career were in pieces and her mind was left spinning.

But one touch from Liam, and Laurie could forget everything else around her. She thought she had it all figured out.

As Laurie lost herself in Liam's warm caresses and his commanding blue eyes, her husband refused to go quietly into the night. While Laurie fought to move on, it was James who was working his way back into her life, fighting for the marriage they had once held dear.

Forced to make choices she never imagined having to make, Laurie finally found herself on firm footing, knowing which way she was going to turn.

But then life threw her another curveball. And when she once again began picking up the pieces, learning how to survive and rebuild after everything exploded, there was only one man still there, one man who remained by her side, showing her that sometimes life isn't about learning how to survive...

It's about learning how to thrive.

A great finale to Laurie's story!!!

By CruisingSusanBookReviews

I received a gifted copy in exchange for a honest review.

Embrace is the best of endings for Laurie's story. At times throughout the story I cried crocodile tears. By the time I finished I was pleasantly surprised with the journey that Laurie had taken and where she ended up. Embrace is endearing, passionately, and leaves a message of forgiveness and redemption. The actions that occurred in the marriage were destructive, but in the end lessons were learned for both Laurie and her husband.

I usually don't get overexcited about books dealing with cheating. Entice and Embrace represent much more than that. How S. Layne dealt with the story line, character definitions, conflicts, and resolutions gave Embrace such a high rating. The story was more than surviving the damage of an affair, it was about thriving

in midst of the tidal wave of destruction.

I loved how S. Layne defined the characters in the story. Take Laurie for instance. When Laurie first found out about her husband's indiscretion, she was weak and made decisions based upon emotions. Very poor decisions in fact. Then we have her husband James who knew he did wrong but made no corrections to change the environment he was in. Finally, we have Liam who was a non-committed sort of person that provided Laurie with the recognition that she was attractive as her self-worth had been hit. As the story progresses we get to see a change in the characters. Laurie starts to learn to thrive on her own. James takes a lesson in selflessness. Now Liam, he kind of kept fighting harder to keep Laurie. She was almost like a possession to him. I had no idea which way the story would go. What I knew was that Laurie and James were growing up and learning from their mistakes. I liked how S. Layne did that with the characters. We are able to see a new side to James, Laurie, and Liam.

S. Layne also keeps the flow of the story well-paced. Readers get just enough background information to not overwhelm them. Then from there we see the inner struggles that occur from being the transgressor and the one wrong. I believe watching the characters fight the devastation and overcome hurdles was a huge plus. I felt like I was sitting right beside the character feeling what they were feeling, even James and Liam. As far as reading the debate going on in Laurie's head made me want to cry when she cried, get angry with her, and laugh when she laughed.

Keeping everything I just mentioned in mind, I give Embrace a solid 5 STAR rating. It was a novel that is worth the time spent reading. One suggestion though; block a certain time for reading Embrace for once you start you will want to keep reading until the end.

Great follow up to Entice!

By JBenoit

"How and I supposed to win a battle when I don't know what I'm fighting?"

"I'm not something to win," I whisper, although my words are clear.

He shakes his head once. "You're everything."

I thought this book was an awesome follow up to Entice, I wasn't sure which way the story was going to be taken but I really loved where it ended up going! This book picks up pretty much right where the first book left off after Laurie learns of the latest betrayal at the hands of a man (or men) she trusted. I won't say what it was in case you haven't read Entice yet but it's left her again in a position where she's questioning everything and left having to figure out what to do to move forward. I don't envy her for the situation she was in and the choices she is now facing but I felt that she handled it with such strength and I really respected her and her decisions.

At the end of the first book I was conflicted with which team I was on and who I wanted her to end up with. On the one hand we have the familiarity of James, her extremely apologetic yet one-time unfaithful husband, with whom she had been with since they were teenagers and whom she still loves despite all that's happened. And on the other hand we have the sexy and mysterious Liam that she shared several steamy nights with trying to forget the mess that was her marriage. Much like her I was very torn between the man she's always known and the prospect of the new and unknown.

When a family emergency comes into play she discovers which man will stand by her side and help her pick up the pieces. I have to say, I was not expecting it to go the way it did but I am soooooo happy with her choice. By about 25% into the book I knew who I wanted her to end up with, so I was very happy it turned

out the way it did. It was all so believable and I know that if I were in her shoes I would have done the same thing, which really helped me connect with Laurie and with the story as a whole.

As I've come to expect from S. Layne/Stacey Lynn, the writing was so strong and even though the book wasn't overly long, it was packed with emotion. I finished the book last night and even now, I get a little emotional sitting back and thinking of Laurie's journey. As a married woman, I think this book is a little scary to think about because no one wants to find themselves in Laurie's situation and putting yourself in Laurie's shoes is a hard place to be but Ms. Layne not only heals Laurie's heart by the end of the book but she also healed the reader's heart along the way.

I really enjoyed this book, both books actually, and I look forward to Talia's story. I also hope that we get more from a certain other character from this book because there is still a lot I want to know there!

A complimentary copy was provided in exchange for an honest review.

A MUST read for all!!!

By Colleen Flynnie Egger

I think I may have loved this book better than the first one (Entice) if that's even possible!!! In Entice we left Laurie on the fence on how to move forward with her life! She had her (ex) husband, James and Liam both in the picture. This is a continuation of that story. We are able to follow Laurie's journey through life, love and eventually happiness.

This book filled me with so many emotions! I loved, I hated then I loved some more. It goes to show that we are just human and make mistakes. It's how we recover from those mistakes and our actions that mean the most. I'd actually give this higher than 5 stars if I could because I loved it THAT much and I think everyone should put this on their to be read list!!

\*I was given a copy in exchange for my honest opinion\*
