Superb study

By Melvin S. Horowitz

This is the iconic standard study of the subject. Dr. Dean was curator of arms and armor at the Metropolitan Museum

for many years. His personal collection was world class.

By Amazon Customer

This is the seminal work for the helmet collector. Bashford Dean was instrumental in the design of the venerable US M1 helmet. Written in 1920 This volume traces the helmets and body armor of the early 20th century to that of the classical period of European suits of armor. Detailed are the design and manufacture of the m1917, 1917 A1, and all of the experimental models in the run-up to the development of the M1. this is

an essential primary source for your reference library.
