## Review

"I get more positive feedback about this book than any that we have previously used. It is rare for students to comment about the textbook on class evaluations, but they do that with this book."

"With HIST, students can develop a working knowledge of the key individuals, events, and ideas of the past and begin the process of thinking historically: understanding the historical context; studying causation; making connections; seeing why it matters on its own terms and as an influence on contemporary life. The writing is clear, the layout is alluring, and the focus is right on target."

Great as an add-on

By S. Osborn

Even though my class uses an e-book, I find having a hard copy much easier to use. And this book did the trick and with the e-book I was able to utilize the online features.

Five Stars

By Ruben Gomez

Awesome and informative book. Used it for a history class. Totally worth the money spent

Great

By Calyn

I ordered this because I used the Psych book from the same publisher and felt it was very user friendly. This one is a similar set up and has chapter reviews in the back as well. It was much cheaper to order 3 than 4 and I liked that this one included volume 1 and 2 together.
