4 of 4 people found the following review helpful.

Total waste of my money

By Lauren

This is not a book to help you learn kinesiology. It is the history of how it came about. If you're in a kinesiology class and are actually learning movements, contractions, joints, muscles, etc. this book will NOT help you! Total waste of my money.

3 of 3 people found the following review helpful.

My son is a high school sophomore and wants to ...

By Kawaii Gray

My son is a high school sophomore and wants to major in Kinesiology. This book really gave him a lot of insight into what Kinesiology is about. He loves this book.

1 of 1 people found the following review helpful.

Lot of general talk, not much as far as ...

By free spirit

Lot of general talk, not much as far as exercises, and hands on, which is what I was looking for. Wanted to use for my students. This definitely wasn't what you would expect
