Mechanical clocks are now considered works of art, a part of history, a part of the family and they also need love.

Sooner or later, your treasured time piece will stop. Your choice is to either live with it in silence or go to a hard to find repair shop, leave it for weeks and pay perhaps hundreds of dollars to get it back, hopefully working.

Fact is, you can more than likely do the same thing they do, by yourself. There are little known items that stop a clock that you can easily do yourself for little or no money. You can even oil your clock for just a few dollars worth of oil.

You can service: Grandfather Clocks, Mantel Clocks, Wall Clocks, Kitchen Clocks, French Clocks, Cuckoo Clocks, etc. No special tools needed besides oil which I will tell you where to buy very inexpensively.

I will teach you how to service your own clock.

Good read I learned a little.

By Patch917

I enjoyed the reading of this book. I learned something's I did not know. Now I am looking for something more in depth.
