Love this book on the water cycle

By Amazon Customer

Our 4 yr old daughter enjoys these Nature's Miracle books . They are great books for your toddler. A lot of other books give out too much information for your toddlers and they loose interest. This one teaches you the very basics of the water cycle. It also shows why it rains, snows and talks about evaporation. We also love the Caterpillar book and the Seed. We have not read the Tadpole one just yet, but it is on our list.
