Excellent . . .

Love this book. The cycles of human life common to all of us, when put into the context of astrological transits and progressions, makes perfect sense.

This is by far one of the best books on secondary progressions. Hopefully it will stay in print. Nancy Hastings shows a clear understanding of the psychological unfolding of a life as well as the event structures that can be triggered by secondary progressed planets and chart angles. With wit, humor, and deep insight, the author gets her point across in no uncertain terms
