The End Is Here And It Is Great!

By Douglas C. Meeks

Well the first thing I should say about this final part is to remind readers (since I had to remind myself) that this is a romance at the heart of this story and not a blood soaked tale of revenge (which is exactly what I wanted after Part 7) but it seems Ms Brook wanted to complete her story as it should be in spite of my desire for revenge.

Everything is coming to a head, the Nippon forces are all around Krakentown, the evil Ghazan Bator has moved into his town and the future looks dim for any peace loving people.

The solution to this mess is neither easy nor is it without a bit of bloodshed but it is VERY creative and allows the story to continue to revolve around the romance which is what this story has always been about and the ending is very satisfying for everyone except my personal "revenge junkie" but even he is grudgingly happy with the story .

I feel there are more stories coming out of this world that I hope will be this good but to be honest I have a hard time imagining a more glorious adventure than this one and the height of the romance is something out of a Hollywood epic. Well done indeed Ms Brook :) The title for this part was spot on, Greatest Adventure exactly.

LITERAL ADDICTION's Review of The Kraken King VIII

By LITERAL ADDICTION

Our Review, by LITERAL ADDICTION's Vivacious Valkyrie - Marta:

*Copy gifted in exchange for an honest review

The last instalment of Zenobia's journey and finally we get to read about the incredible war machine known as the Skybreaker. Ariq has sworn to protect it and not allow it to be used but the Nippon Empire are hell bent on claiming it. Having narrowly escaped from capture Ariq is still healing but with the help and support of family and friends maybe they can find a way to finally defeat their enemies . Ghazan Bator holds all of Kraken town hostage with the Empires fleet circling their waters but with a stout heart and a daring plan where there's life there's hope! One thing is certain Ariq will do all within his power to protect that which he cares about and there's no doubt that Zenobia is top of his list.

These two characters have truly embarked on a grand adventure that has had so many heart stopping moments that it could only be considered a five star read! First of all this is a romance but it's a passionate combustible relationship that just sucked this reader right in. I want Ariq! He's everything you imagine a hero to be and yet he's not perfect and constantly wants to do the right thing but o my I could shake that man! He's so busy trying to give Zenobia the freedom she craves that he forgets what she needs most is his love. Zenobia hasn't had a good start in life and is desperate to keep her financial independence but mercenary fortune hunters and numerous kidnap attempts have made her wary of men. The most important thing in a relationship is trust but in order for that to happen full disclosure is often needed and Zenobia has learned this the hard way. To say she has blossomed under Ariqs attentions is to detract from her natural spunk but she has become a much softer heroine whilst never losing the wit and strength that has made her such a likeable character.

This author has truly got a wonderful imagination and happily the talent to go with it. I've had an amazing time reading these ebooks and heartily recommend this series which for me is a keeper. I'd love her to pen more about these characters but anything in this fabulous world that Ms Brook has created would go on my

wish list as it's been such an emotional journey. Sometimes there are not enough superlatives to use to express how good a book and it's world building is and that would be the case here. I absolutely loved everything about this story even if at one point events took my breath away and I'd sincerely like to thank the author for such an amazing story.

Meljean Brook is an author you don't want to miss and *The Kraken King* exemplifies everything that is awesome about her.

By Alexandra

What makes this last part of *The Kraken King* such an awesome conclusion is that, while edge-of-your-seat exciting, it isn't over-the-top. Ariq and Zenobia return to Krakentown, where it has been taken over by Golden Empire rebel Ghazan Bator and its seaport is guarded by a Nipponese Empire fleet in order to force Ariq to reveal the location of an enormous war machine that, in the wrong hands, could easily level cities.

Since part seven ends in somewhat of a cliffhanger I won't reveal how this part begins, but the greatest conflict is convincing the Nipponese Empress to give up trying to acquire the machine. The obstacles are seemingly insurmountable but the conclusion is such an intelligent weave of trust, timing and using the tools that are available...no deus-ex-machinas here. Meljean Brook writes an incredibly entertaining story, and Zenobia's journey from 'scribbling spinster' to 'Kraken Queen' is simply wonderful. I also love the contrasts shown in Ariq. He is a very physically imposing and strong man - but he is a calm, conscious leader who uses discussion to solve problems first. Fighting is always a last resort.

What I enjoyed most about this book was the culture clash - and the fact that most of the characters are not white. In fact, in the alternate history Iron Seas world the strongest empires and incredible technology comes from Asia and the Golden Empire, which was spawned from the leadership and conquests Ghenghis Khan.

Since this is the final part of eight pieces I can't say much more about how I enjoy Meljean's worldbuilding, characters, writing, etc. What I will say is *The Kraken King* is easily a favorite story of mine. If you are unsure about this book, the genre, the author this is a great place to start because you can just purchase part one and give it a try. If you don't like serials now every part is released and you can read them all - or wait until later in the year when this is packaged as one novel. Either way this isn't a story to miss.
