Excellent

By Jwoods2112

Bought this as a present for my oldest daughter. She is a huge fan of the series but hasn't been able to read all of them. She was so happy to add this to her collection.

Ron Roy Scores Another Hit!

By Winemaiden

My 9 year old daughter started reading these books about a year ago, and has now read every book in the series!She delights in every detail, from physical descriptions of the suspects to the personalities of the recurring charaters, and relates easily to the three kids who are the detectives. She can hardly wait for the next title to be released. This book, like the others, has a plot that is believable to its audience, encourages problem solving and critical thinking, and provides a trio of heroes that your own kids would like as friends. In this volume, the reader is exposed to a museum and information about mummies, as well as given a mystery to solve. Another delight for the 6 to 9 year old set.
