Amazon.com Review

This new version of the Star Trek Encyclopedia is a reissue of the 1997 edition, plus a 128-page supplement of additional material that updates Deep Space Nine to the end of its run and Voyager to midway through season five. It also covers the movie Star Trek: Insurrection. The supplement is as meticulously detailed as the rest of the volume, listing such fascinating trivia as chadre kab (Seven of Nine's first meal), 'Kahless and Lukara' (a Klingon opera), and voraxna (a Cardassian poison), as well as all the new characters and species. Appendices include illustrations of starships, cast and crew listings, a historical timeline, and a bibliography. All photographs and illustrations (except for a few historical shots) are in color. The encyclopedia was devised in part to help production staff on the various Star Trek TV series to keep up with the ever-increasing level of detail generated by over 30 years of creative effort. It is an excellent reference volume and, whether you want to settle an argument or write a novel, this book will answer your questions. But beware: the extensive cross-referencing leads to curious time-distortion effects, in which the unwary reader, dipping in to settle a single query, encounters an irresistible urge to browse further, during which hours of normal time can pass in the wink of an eye. --Elizabeth Sourbut

From Library Journal

Lots of color photos, and half of the 5000-plus entries are new.

THE STAR TREK ENCYCLOPEDIA, REVISED AND EXPANDED EDITION: A REFERENCE GUIDE TO THE FUTURE BY MICHAEL OKUDA, DENISE OKUDA PDF

In celebration of the 50th anniversary of the classic show, a fully authorized revision of the popular reference companion: a two-volume encyclopedia featuring a completely new design, stunning new full-color photographs and illustrations, and 300 pages of new entries, packaged in a specially designed and shrink-wrapped deluxe slipcase.

When it debuted in 1966, the Star Trek series quickly became a pop culture phenomenon, inspiring six spin-off series and thirteen films—including Star Trek Beyond, opening July 22, 2016—as well as books, comics, games, toys, and more. One of the largest franchises of all time, Star Trek's overall box office revenue totals more than \$1.93 billion to date.

Since it's initial publication twenty-five years ago, The Star Trek Encyclopedia has been the go-to source for everything related to the franchise's canon. Packed with highly detailed information, including brief episode and film synopses, no other book has come close to offering the same wealth of insight into the Star Trek universe. Now, The Star Trek Encyclopedia has been thoroughly revised and redesigned for a new generation of fans. This updated and expanded edition includes 300 more pages, information, photographs and illustrations, and offers exhaustively researched and detailed entries on the characters, ships, and events from the last fifteen years of Star Trek television shows and films, including Star Trek: Voyager seasons 4-7, Star Trek: Enterprise seasons 1-4, and Star Trek Nemesis. It also features material detailing the recent big-screen films Star Trek (2009) and Star Trek: Into Darkness.

Packaged in a stunning deluxe slipcase, this two-volume set is a must-have for every Star Trek fan's library.

. . . Wow!

By rabbitwarren

This is a must for a Star Trek fan! I used to say I knew a lot about Star Trek . . . ha, ha! (yeah, right!) It's a really cool book--it's got everything from the USS ENTERPRISE 1701 herself to root beer! It's got TONS of fabulous pictures (clear, too! they aren't fuzzy and everything!) I can't ever just look up one thing in this book; whenever I go to look up something, I see something else, which leads to something else, and so on, and so on, . . .

This book also lays to rest what stuff has been made up by fan fiction writers, and what stuff was *really* in the shows (or movies). Example: No, Diane Duane did *not* come up with the Romulan greeting "jolan tru"!

Also, if you want to do as Diane Duane, A.C.Crispin, or William Shatner, and write your own Star Trek story (whether just to post on the 'net or *actually* publish), this would be most helpful.

. . . Simply: Great book, you'll love it!

A great addition to Star Trek Universe

By dayz

This is a terrific update to the Star Trek universe. From the casual fan to the devoted fan, the information is meticulously presented. My only complaint is that the updated pages are separate rather than seamlessly intermixed with the rest of the data. My biggest complaint is that there has not been a recent update. PLEASE - we need an update that includes the end of Voyager and Seasons 1 through 4 of Enterprise. On that same theme - WE NEED AN UPDATE OF THE STAR TREK CHRONOLOGY - another awesome Star Trek book - indispensable and badly in need of updating.
