## Review

### Praise for *Wildflower*

“...Pure delight... If until now you merely liked Barrymore...you'll adore her once you read this series of personal essays.”-New York Times Book Review

“The book is a deeply thoughtful and fun page-turner—like a rich dessert that also happens to be good for you.”

-InStyle

“[Barrymore] brings honesty, sweetness, and humor to the tale of how she fought to earn the hard-won wisdom that steered her from being a 12-year-old former child star to becoming a beloved actor...a warm and inviting narrative.”

-Publishers Weekly

"Barrymore's book is a cheerful and happy examination of some of the ups and downs in her life."

-Booklist

"...Heartwarming. Fans of the actress, her production company, makeup line, or girl-next-door demeanor, or anyone looking for a companion in book form, will enjoy."-Library Journal

“An endearing, earnest, lightly cultivated garden of stories from the actress.”

-Kirkus Reviews

Since you can only save the data in your computer hardware and gizmo. So, it allows you review it almost everywhere you have readiness to read Wildflower By Drew Barrymore

# WILDFLOWER BY DREW BARRYMORE PDF

Award-winning actress Drew Barrymore shares funny, insightful, and profound stories from her past and present told from the place of happiness she's achieved today.

Wildflower is a portrait of Drew's life in stories as she looks back on the adventures, challenges, and incredible experiences of her earlier years. It includes tales of living on her own at 14 (and how laundry may have saved her life), getting stuck in a gas station overhang on a cross country road trip, saying goodbye to her father in a way only he could have understood, and many more adventures and lessons that have led her to the successful, happy, and healthy place she is today. It is the first book Drew has written about her life since the age of 14.

I was very disappointed. As others noted

By R B Edmo

While I grew up just loving Drew Barrymore, and even bought the audio version so I could hear her read it herself, I was very disappointed. As others noted, the disjointed chapters made it hard to keep an emotional investment in the book. You get to hear a meaningful story about her childhood and then one page later she's name dropping Cameron Diaz and talking about jumping out of a plane with her. Then back to her dad in another meaningful chapter, to talking about Adam Sandler and all the movies they've done together. Plus she uses the words "so" and "literally" way too often, and repeats figurative language many times throughout the book ("made a face like she ate a lemon"), something even more obvious to the reader when it is read to you. Lastly, I felt like she tried to prove a point that she's serious and proper and "a lady" even though I found her fun and wild years something she should be far more proud of. She came off as rather prophetic and a teacher of life lessons and I didn't need an actress/producer author to tell me that I am the only thing standing in my way, you know. I was more interested in her stories and not a mini commercial about why her makeup line is amazing or that you just "choose happiness" and so forth.

Generous 3 stars-- big fan, but book fell flat

By DDC

I am a fan of Drew Barrymore's movies, and being of the same generation, I root for her. Sadly, I did not love this book, and I so wanted to. She is clear upfront that it is not a memoir, but I feel it should have been. The book lacked structure. As opposed to a memoir like Tina Fey's, Amy Poehler, Michael J Fox, Dick Van Dyke, etc., this book did not follow chronologically through her life; rather, it hopped randomly from topic to topic and through different time periods of her life. I felt like, had there been a clearer thread that tied the essays to each other, it would have been a more enjoyable read. Also, I felt that many of the essays were in a weird "middle place"-- not quite comedic, but not quite introspective either. It was almost like she didn't want to fully commit to a style, or was afraid to really let the reader in. I will remain a fan of her movies and production work, but felt she lacked direction as an author.

Confusing

By Sandra Dunn

I am a huge fan of Drew...she just seems like an honest, down to earth person who made the best of her tumultuous past.I really wanted to love this book, but the style of writing and the disjointed tales made it hard to follow. This book is not a biography or memoir. .it is a collection of memories in story form.Found myself losing interest about 1/3 of the way into each chapter. ..I think I enjoyed her radio and tv promos for the book, more than the book.
